Priceless artists!

Saturday, Noon - 1:30 PM
on the Brunch Lawn

Earthsea **Deborah Yoon**

This piece is a rumination on William Blake's timeless poem, *Eternity*, and represents the celebration of joy as it flies.

*"He who binds to himself a joy
Does the winged life destroy
He who kisses the joy as it flies
Lives in eternity's sunrise"*

Energetic Chords **Nektardrop**

Energetic Chords is a painting representing the vibratory fabric of the Universe in visual form. Giving life to the cosmos around us, this painting is a manifestation of the collective consciousness residing in us all.

Feather Lights **Calli Beck, Chris Linder, and Jonathan Steele**

Bringing the beach stage into a brighter more interactive night time experience.

Forest Stage **Brendan Colloran, Danielle Deniece Boyington-Warmack, Sam Pearlman, Liz Donnelly, Meena Young-Tem, Melody Chang, Sarah Dobro, Chelsea Bronson, and Caitlin Rand**

A colorful temple of electric flowers encourages engagement in the sonic landscape around us—take a seat beneath the sky in a lovely little squish lounge, boogie through eclectic down-tempo beats and immerse yourself in the future of the forest.

Founding Sagas of the Institute 2.0 **Louisa Bukiet (iterating on work by Jason Seigler & Olga Nunes)**

All communities have founding myths. These glowing glimpses imagine the past of the original camps of the Institute Village. Originally built by Jason Siegler and Olga Nunes, they were first created for Burning Man in 2011. Eight years later, they give us a double backwards glimpse into our Beginnings.

Grassy Knoll **Bonnie Barrilleaux & Gretchen Perkins**

The *Grassy Knoll* provides the extreme comfort of sitting in a muppet's lap. On a soft furry hill, one patch of grass at the top grows taller than the rest, lit from below by grass-green light. When the wind blows, the green lights dance to reveal their blue and yellow components.

I am a triangle **Ben H Kram, Sharon Kubo, Opal Holley, and Joshua Slocum**

I am a triangle.

La Victrola Green Fairy Garden **La Victrola Faerie Dust Society**

The *La Victrola "Green Fairy" Garden* aspires to pay tribute to the bygone era of non-digital spoken word with a tastefully curated art nouveau bar with cathedral ceiling, facade and hand-drawn art. We serve tasty non-alcoholic cocktails and expect patrons to engage in spoken art by reading poems, jokes, and stories.

Lichtoglyphs **Vibrata Chromodoris**

Lichtoglyphs lead curious Priceless attendees on a stroll up the fire road that ends at the train tracks, weaving in elements of the environment, invoking feelings of mystery, an inward journey, and possibly even a transformation of consciousness.

Light Orchestra **Ka-Ping Yee & Benjamin James**

Walk up and conduct the *Light Orchestra*! With a subtle gesture, create a flicker; with a sweep of your arm, throw colour 20 feet into the air. A chorus of LEDs awaits your command.

Luna Lounge **Steven Frangos**

Enter and sit, bask in the glow of the moon with good company and thoughtful sounds. Meet new people, share some food and drink, and relax. We're all in good company here. Watch the phase of the moon, it might mean something.

Night Game **Marissa Emmer**

As the sun goes down the game appears. Twin-kling lights intertwine with the net and draw you closer, inviting you to play. Find a friend or three and hit the glowing birdie back and forth under the stars.

noöFloor **Christopher Corbett McGuire**

A soft, comfy, sound-reactive vibrating platform for your tactile enjoyment.

Oscilloscope Synth Rich DDT

A brand-new musical instrument built upon decades-old technology. Gracing the glowing display of this precision lab tool is synaesthetic mapping of sound to form. It's a pure joy to play, with entertaining animations and brilliantly retro blips. It's a mind-boggling journey into the true nature of oscillating wave forms.

Ouroboros Ian Henderson & Sue-Yee Leung

Biomorphic, soft rubber artwork featuring rhythmic patterns of rubber over forged metal. We cut each spine/curl one piece at a time and layer them onto forged aluminum armature. Our design process and object crafting happens simultaneously, mimicking the incremental growth patterns of flora and fauna.

Out Of Order Wall Nick Avila & Suzy Stowell

What? How can a wall even be out of order?

Out of this World Advice Emma Lefley & Colin Sullivan

An alien communication device was left here 2000 years ago by future-seeing aliens who knew that in 2018, humans would really need some advice. Passed down through generations, the communication device is now available for all to contact the extraterrestrials for advice.

Panspermia Chassy Cleland

Sauna V2 Igor Serebryany

You catch a hint of cedar in the air, and a sudden sense of tranquility washes over you.

SCHOOL Zack McCune

SCHOOL is a set of Japanese koi kites or "Koinobori" arranged in the Feather River. Watch for them to swim in the air above the river rapids as the wind picks up each afternoon.

Smoke & Mirrors Hookah Lounge Tristan Ursell & Hannah Bishop

Smoke & Mirrors is an enchanted space from another time, where warm light, sweet smoke, and laughter fill the air. In your cushioned nest, you reconnect with old friends and make new ones, you reminisce and plan for the future, you recuperate and relax, as you prepare to hit the dance floor... again.

Something Dino Renee Green & Chuk Moran

Something Dino invites you to explore your inner dinosaur! Play with these creatures and help them tell their stories of past, present, and future. Facilitated power tool modification welcome.

Sun Seeds Ryan Alexander, Toby Schachman, and Monique DeSalvo

THE LENS Lauren Kilb & Luke Hulén (representing the uncūth collective)

THE LENS is a playful yet confrontational art piece that challenges participants to experience shifts in perspective. By enabling a sudden shift in focus from the external world, to infinite self-centered images, participants are invited to make a parallel shift in their habitual perceptions of themselves.

Zomes *Rob Bell*

The *Zomes* of Rob Bell have delighted travelers far and wide who have been drawn to their alluring forms. The energy within harnesses a nostalgia for the primordial with a deeply meditated vision of the future. These beautiful inter-celestial escape capsules free the imagination from constraining thoughts and previous perceptions regarding structure.

ALL WEEKEND

The Troubadours

There will be many a meandering minstrel and wayward bard wandering throughout Priceless, filling the woods with mellifluous sounds.

Shuttle Schedule

Parking shuttles operate on a continuous loop, like an elegant mobius strip but with fossil fuels and pavement.

Thursday: 3:00 pm – 2:00 am

Friday: noon – midnight

Saturday: noon – 11:00 pm

Sunday: 8:00 am – 2:00 pm (two shuttles!)

Sunday Selfie Sendoff

10:00 am – noon: Come by our table near the shuttle pick-up in Belden and grab refreshments and a snack for the road. Snap a selfie with friends so you can remember the good times long after you leave Belden.

noon: Priceless is officially over for the year... Drive Safely!

Guidelines

CONSENT! Maximum enjoyment of all starts with enthusiastic consent! Before sharing snacks, hugs, or a sleeping bag—ask. **If someone is unable to say what they want, then they can not consent to sharing anything.**

SWIMMING! Please **do not swim downstream from the beach or in the rapids or whitewater area.** We do not have a lifeguard on duty, the water this year is faster and colder than usual, and this stretch of the river can be unpredictable and dangerous. Always swim with a buddy, and tell your friends about your plans if you're going exploring.

SNEKS! In the event of a rattlesnake encounter, clear the area as safely as possible and please immediately find someone with a radio to call it in. This year we will have a herpetologist on call, and she will be asked to safely handle and relocate the snake.

BADGES! Have you earned a merit badge yet today?

LNT! Priceless is a leave-no-trace event, so please remember to: (1) **Pack out your own recyclables and trash!** We have limited dumpster space and unlike previous years, there is no recycling on-site! (2) Bring your floatie home! Label it—it's yours. (3) Do a moop sweep of your campsite after packing up.

FIRE! It's fire season, so be careful. You need a permit for camp stoves, and no personal BBQs are allowed. Permits are available at the door. There are communal propane BBQs available by the lodge. Lastly, smoke responsibly and dispose of waste safely.

ABSOLUTELY NO FIREWORKS, CAMPFIRES, GENERATORS, CANDLES, OR FIRE-SPINNING ARE ALLOWED.

EVAC! If you hear a PA and air horns indicating an evacuation, grab your keys, your ID, and life-saving meds (but no gear) and go to the lodge. Drivers: If your car is onsite, go to onsite parking lot. If your car is offsite, go to RV lot.

Activities

Activities are one hour long unless otherwise noted. This schedule is subject to change. Be sure to check the info board next to the Lodge for the latest and greatest!

ALL WEEKEND

Sign up for the first ever Priceless Pointless Rewards Program and receive your very own Pointless Card. Belden, like every other place on earth, is crawling with microscopic life that we usually overlook. We'll use compact, foldable microscopes to visualize protists and other microbes from the river, puddles, and maybe our own bodies. Participants can attach the microscopes to their smartphones to take photos and keep them after the exercise to continue exploring at Priceless and beyond.

Acoustic String Jam: Old time, Bluegrass, and Celtic with Bob and Mary Z Cox & Cameron

@ *The Forest Stage*

Bring your instrument! Come and jam out, strum along, or keep the rhythm through an easy selection of English, Irish, and American tunes and reels. There will be chairs, shade, and water. All string instruments, hand drums, or woodwinds are welcome! No amplified sounds or microphones. Feel free to bring an accordion, but please, no bagpipes or bowed psalteries. Big brass instruments are probably just too much, though a tasteful tuba is always appreciated. Some instrument storage available—find Sid.

@ *The Luna Lounge*

SuperBloom!

Many a friendship has taken root at Priceless. Bring your budding buddies, perennial pals, and invasive individuals to the greener grass of Belden.

This is no garden variety gathering, so don your rose-colored glasses, gild your lilies, and let's dance before we're all pushing daisies.
